Kimseed Linkage Rangeland Contour Seeder

The **Kimseed Linkage Rangeland Contour Seeder** is a proven **heavy-duty** linkage seeder is used in rangeland revegetation projects **worldwide**.

Mounding on the contour **allows water harvesting** in low rainfall areas and **reduces erosion** potential. The collection of rainfall in the contour furrows penetrates deeply into the soil, supporting successful establishment of grasses and shrubs.

Features:

- 3-pt linkage implement Category 2 can be operated on slopes of up to 30 degrees.
- Stump jump ripper.
- **Reversible** opposed 600mm discs for mounding and furrowing.
- **Multiseeder drum** for handling bulky or mixed density seeds, fertilizers, manures and mulch.
- **Twin 150mm Dia. drop tubes** guide the seed to the mound

Specifications

- Power Requirement Minimum 70 hp
- Weight: Gross:950 kg
- Weight: Net: 735 kg
- Dimensions: 1860(L) x 2300(W) x 1400(H)
- Shipping Details(OD size): 2350(L) x 1800(W) x 1000(H)
