

Kimseed Shearer Multi Seed Drill

The KIMSEED Shearer Multi Seed drill is recommended for use in sowing a wide range of cereal and pasture seed.

The optional coulters cut a path ahead of each sowing tine, which minimises disturbance of the soil surface or existing pasture. The fluted distributors cater for a wide range of sowing applications, from small pasture seeds such as clover and lucerne, up to large legumes.

FEATURES:

- 3 Row Frame
- Large capacity grain & fertilizer hopper
- 580 spring adjustable tine assembly
- Wide range 31 speed gear box
- Remote greasing, for G/F shaft bearings
- Extra large sight glass
- Fluted distribution in grain & fertiliser compartment
- Optional trailing hitch kit
- Gas struts on lid
- 280mm Coulters for excellent trash control

Kimseed Shearer Multi Seed Drill

GRAIN & FERTILIZER BOXES

- Both boxes provide extra large capacity
- Distributors allow either seed or fertilizer to be distributed through both compartments

ADJUSTABLE TINE ASSEMBLY

- Edge-on tine assembly, fitted as standard,
- Easy pressure adjustment for varying soil conditions.
- Adjustable to 75kg (165lb) break-out pressure for increased digging ability.
- Ample underframe clearance for good trash handling

GEARBOXES

- Feature a 31 speed fully enclosed oil bath gearbox
- Gives simple calibration
- Wide range of sowing rates for seed & fertilizer

DISTRIBUTORS

Three row fluted rollers with restrictors

- Peg Tooth – Fluted & Broad Bean Rollers
- Blank off cover & roller insert

SPECIFICATIONS

	13 Row	16 Row
