### Pink and White Everlastings *Rhodanthe chlorocephala sub species rosea*

Arguably the most popular native wildflower of Australia

Reasons to choose Everlastings:

- Water-wise
- Bold and beautiful
- 100% Germination rate
- Australian native
- Long flowering from July to November
- Self seeding
- Seed is viable for at least 10 years
- Tolerate extremely cold weather, frost, moderate waterlogging, heat, coastal, tropical and little sunlight

Planting Requirements:

- Reasonably well drained soil
- Access to sunlight
- Can be planted all year round if irrigated in Summer
- Weeds must be controlled
- Thrive with use of all purpose fertiliser
- Seed to be pressed into the soil
- Sowing depth should be no greater than 5mm
- Sown at a rate of 1 gram per 1m<sup>2</sup>

**Fresh Supplies are available, minimum order 250 gm**

**Sustainable land management and practical applications since 1970**
