Spinifex

Triodia Collection

Kimseed specialises in the collection of *Triodia* (spinifex grasses).

Due to Kimseeds design and manufacture department, Kimseed is fortunate to have designed practical machines to harvest and process spinifex seed on a large scale. Thus meaning we have the capacity to supply large amounts suitable for mine rehabilitation.

Whilst we may have surplus seed in stock we encourage forward orders for each picking season, which usually commences after the first rains (from Feb).

Examples of Western Australian *Triodias* we harvest/stock include the following:

Triodia Species	Distribution
<i>Triodia basedowii</i> , Hard spinifex	Pilbara, Central inc Goldfields
<i>Triodia bitextura</i> , Curly spinifex	Pilbara and Kimberley
<i>Triodia epactia</i>	Pilbara, Kimberley
<i>Triodia lanigera</i>	Pilbara, Central
<i>Triodia pungens</i> , Soft spinifex	Pilbara, Kimberley, Central
<i>Triodia wiseana</i> , Limestone spinifex	Pilbara, Kimberley

The list is only an indication of Triodias available. If you do not see the one/s you are after please contact us and we will our best to source it for you.

Prices and availability on asking.
