## Kimseed Rotary Cleaner Hand Pulled Model

Unit with Centrally mounted drum and powered by a 2.5 Hp Honda Engine.

The Kimseed Rotary Cleaner was designed to Clean Quickly and Efficiently most Grass Seeds, Grains and other Seeds like Tagasaste.

Because of its Portability is ideally suited to be used as Filed Cleaner.

Two removable screens make Cleaning easier since Screens can be easily replace by others with different size holes.

Rotation Speed can be quickly changed via the Engine Throttle.

Feed Rate is determined by the Speed and Inclination of the Cleaner (Angle).

The Cleaner has 2 Screens that can easily be changed for whatever size is available and required by the Seeds or Grains being processed. Screens are bolted and clipped to the cylinder and using a single spanner, they can be quickly changed.
