

KIMSEED AUSTRALIA

Zig Zag Aspirator

Applications:

The Kimseed Zig Zag Aspirator is designed to remove impurities from a wide range of seeds including cereals, grasses, pulses, legumes, vegetables, flowers, shrubs and trees, quickly and efficiently.

The Aspirator separates the seed sample into 4 fractions by weight.

There are 2 models available;

The Basic model with a manual feed chute and a, Research model with a 6 L hopper and vibrating chute.

Features

- The seed heads or pods are fed from a sealed 6L Hopper via a dust-controlled chute.
- Meshed air filter before fan to prevent seed loss into dust-bag.
- The Dust Control System allows for comfortable indoor usage.
- Powder coated air chamber for ease of cleaning
- Clear front allows for easy inspection of the flow of seed material as it is being processed.
- Step up platform allows for easy hopper access.

Operating Controls

- Digital air speed indicator available to measure air flow and to set vacuum pressure.
- Adjustable stepless airflow control with 2 Air Vents allows for increased seed cleaning efficiency.
- Emergency stop button

Dimensions

Length: 1800 mm

Width: 950 mm

Height: 2145mm

Weight: 185kg

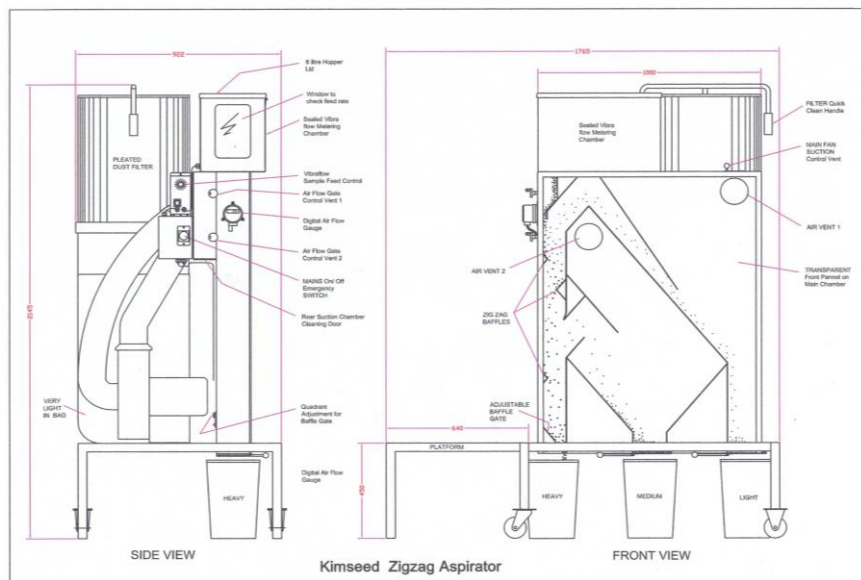

Power

1500W 240VAC 50-60 hz

Single Phase 10A

Cleaning Capacity

Up to 3-500 kg/hr based on wheat
